**Subject:** RE: Draft Permit Comments - South Londonderry Township Municipal Authority - PA0087700 A1

J. Pascal,

This is to inform you that we will not be providing any additional comment related to the WER study requirements. If for any reason, the draft permit is modified from the version that was submitted to us on July 29, 2015, please forward a copy of the new draft permit to us for review before issuance.

Note: As a reminder, PADEP should provide EPA with all the information used to develop draft NPDES permits (including, where applicable, the Water Quality Protection Report (WQPR), Internal Review & Recommendation (IRR), and/or Pollution Report), and any other relevant information used to develop these permits such as, but not limited to, WER Study, PENTOX, WQM, Toxic Screening Analysis, and Responses to Public Comments)

Should you have any questions or concerns regarding this matter, please contact me.

Respectfully,

Joel

Joel,

Were you able to receive the WER study for the subject from Denise Hakowski? Can we finalize the permit?

Thanks,

Pascal

**Subject:** Draft Permit Comments - South Londonderry Township Municipal Authority - PA0087700 A1

J. Pascal,

According to the Memorandum of Agreement (MOA) between the United States Environmental Protection Agency (EPA) Region III and the Pennsylvania Department of Environmental Protection (PADEP), the EPA has reviewed the draft National Pollutant Discharge Elimination System (NPDES) permit for:

Draft Permit: South Londonderry Township Municipal Authority

Also Known As: South Londonderry Campbelltown East STP

NPDES ID: PA0087700 A1

EPA-Received: July 29, 2015

EPA has chosen to perform a limited review of the draft permit based on the Water Effect Ratio (WER) study requirements. As a result of our limited review, we offer the following comments. A WER study is subject to EPA review and approval under section 303(c) of the Clean Water Act (CWA) and its implementing regulations at 40 CFR Part 131. The fact sheet lists the results of a WER study performed and explains that EPA reviewed it. The draft permit package did not include the final study. Could you please provide us with the final study, including EPA's review and acceptance for our review and comments. Please address our comments and recommendations, and provide us with any changes to the draft permit, fact sheet, and/or permit components. Should you have any questions concerning this matter, please contact us.

Respectfully,

Joel

Joel Blanco-González
